PREFACE

This report is one in a series on Soviet Ground Force and logistic installations being prepared for a DIA CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the NPIC Photographic Analysis Group.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training area or courses, (S) special training facilities, (I) unidentified facilities or tracking activity.

SUMMARY

An Ammunition Storage Area is located 5 kilometers (km) south of Chuguyev on the west side of the Chuguyev-Kupyansk Rail Line (Figure 1).

The installation covers approximately 280 acres and is comprised of a secured ammunition storage area containing 25 ammunition storage buildings and two support buildings; and an adjacent support area containing 15 buildings prob-

ably utilized for administration, personnel billeting, and miscellaneous support. The ammunition storage area is surrounded by a wide firebreak between a double fence.

The area is covered by [redacted] photography and [redacted] missions between [redacted]. No changes in facilities were observed during this period. The installation appeared active on all coverage.

DESCRIPTION OF INSTALLATION

Railroad Service

A spur from the Chuguyev-Kupyansk rail line serves the installation.

Road Service

The installation is served by a secondary road which connects with the Chuguyev-Kupyansk Highway.

Ammunition Storage Area

Area F contains 25 ammunition storage and 2

support buildings. The area is double secured with a firebreak between the fences. Buildings are widely scattered in rolling terrain. The support buildings probably have a security function.

Other Buildings and Facilities

Area H contains 15 buildings probably utilized for administration, personnel billeting and miscellaneous support. This is a support area for the ammunition storage area.
